### Workshop Overview:

The field of cryptology is expanding quickly, and it is becoming more and more popular among information scientists, notably in activities relating to networks, banking, mail, and information security. This workshop seeks to engage students from all around the nation and give them a forum to learn about career options in cryptology and associated research. This workshop's goal is to systematically introduce mathematics and engineering students and faculty to the fundamental concepts of cryptography, network security, and other information security-related concerns and applications.

#### About CRSI:

Cryptology Research Society of India is a scientific assembly consisting of academics, researchers, specialists, students and institutions interested in promoting the science and technology of Cryptology, Security and allied disciplines in India.

#### About the Department:

The department of Mathematics was established in 1926 and now provides PhD as well as two UG and one PG programmes in Mathematics. One of the primary areas of research is cryptography. The department strives to develop highly competent and motivated mathematicians while maintaining a high degree of academic achievement.

#### About the College:

St. Thomas College (Autonomous), Thrissur, is the oldest Catholic College in Kerala and is the first College to have been established by diocesan clergy in India and is older than all the Universities in Kerala. It was founded as an educational institution in 1889. The college has had a very strong scholastic tradition that spans over a century. Apart from the contributions to intellectual and cultural fields, the College community has responded positively to the problems thrown up by the processes of nation-building. St. Thomas College is accredited with A++ (3.70) grade by NAAC. The UGC granted Autonomous Status to the College from 13th June, 2014 and College with Potential for Excellence status with effect from 01st April, 2016.

#### About DRDO:

DRDO is the R&D wing of Ministry of Defence, Govt of India, with a vision to empower India with cutting-edge defence technologies and a mission to achieve self-reliance in critical defence technologies and systems, while equipping our armed forces with state-of-the-art weapon systems and equipment in accordance with requirements laid down by the three Services. Today, DRDO is a network of more than 50 laboratories which are deeply engaged in developing defence technologies covering various disciplines like aeronautics, armaments, electronics, combat vehicles, engineering systems, instrumentation, missiles, advanced computing and simulation, special materials, naval systems, information systems and agriculture. Several major projects for the development of missiles, armaments, light combat aircrafts, radars, electronic warfare systems etc are on hand and significant achievements have already been made in several such technologies.

#### REGISTRATION FEE:

Students / Research Scholar : Rs. 1000  
Faculty / Others : Rs. 1500  
**A 10% waiver in registration fee is available for CRSI members**
